

# INLINE KEYBOARD BUTTONS BY @TechifyBots

---

## **## First Row One Button**

```
reply_markup = InlineKeyboardMarkup([InlineKeyboardButton('Example 1',  
url='http://t.me/TechifyBots')])
```

## **## First Row Three Buttons**

```
reply_markup = InlineKeyboardMarkup(  
[[InlineKeyboardButton('Example 1', url='http://t.me/TechifyBots'),  
InlineKeyboardButton('Example 2', url='http://t.me/TechifyBots'),  
InlineKeyboardButton('Example 3', url='http://t.me/TechifyBots')] ])
```

⚠ YOU can add more buttons or YOU can also remove the buttons that are in the middle

## **## First & Second Both Row Two Buttons**

```
reply_markup = InlineKeyboardMarkup([  
  
[InlineKeyboardButton ('Example 1', url = 'http :// t.me /  
TechifyBots'), InlineKeyboardButton ('Example 2', url='http://t.me/  
TechifyBots')], [InlineKeyboardButton ('Example 3', url='http://t.me/  
TechifyBots'), InlineKeyboardButton ('Example 4', url='http://t.me/  
TechifyBots')]])
```

## **## First & Second Row Single Buttons**

```
reply_markup = InlineKeyboardMarkup([  
[InlineKeyboardButton ('Example 1', url = 'http :// t.me /  
TechifyBots')], [InlineKeyboardButton ('Example 2', url='http://t.me/  
TechifyBots')]])
```

## **## First Row One, Second Row Two, Third Row One Buttons**

```
reply_markup = InlineKeyboardMarkup([
```

```
[InlineKeyboardButton('Example 1', url='http://t.me/TechifyBots')], [
InlineKeyboardButton('Example 2', url='http://t.me/TechifyBots'),
InlineKeyboardButton('Example 3', url='http://t.me/TechifyBots')], [
InlineKeyboardButton('Example 4', url='http://t.me/TechifyBots')] ])
```

🙏 Hopefully, this PDF for adding buttons will be very helpful to you in adding buttons in Telegram bots. 🙏

❤️ THANK YOU : @TechifyBots ❤️
